

Report: IDEAL 2K14-15

Education is most powerful weapon which you can use to change the world.

-Nelson Mandela

With an idea of helping the poor children for their education, we, Team VNRSF, launched an event called I Donate for Education And Learning (IDEAL). As a part of the event we collected the used records from all the labs in the college and got them recycled into new books. A total of 2992 books were produced from 5.6 tonnes of record waste which is equal to saving 80 huge trees. We distributed the books at 4 different places where there is an urgent requirement.

The details are tabulated below.
