

# Report: DRUSHTI

**Louis Braille's Blind Educational Society** located at Narsapur village is providing education to **35 children** who are visually impaired. Some of them are partially blind and the other are fully blind but they achieved excellence in leading their lives.

To enhance moral support of these children, Team VNRSF organised an event named **DRUSHTI** in the month of December, 2013. By raising funds in college, we prepared food and bought fruits for these **multi-talented children**. Children mesmerized us with their skills.

They beautifully made toys with wet flour just with sensory vision. They even played games like caroms, chess. And all of us were taught about Braille Literature, which is the code of language for these **full-bodied children**.
